A MEMBER OF *VISION SOURCE*

Dr. Fred E. Petrunak • Dr. Michael A. Satryan • Dr. Shawn D. Jones • Dr. Eric M. Rettig • Dr. Whitney M. Territo

To our patients:

We want to start off by saying that our highest priority and concern is for the safety of our patients, staff, community, family, and friends.

We have made the decision based on Centers for Disease Control guidelines to reduce our services to urgent/emergent eye care only for the next few weeks. We will be re-evaluating week to week and keep you updated.

What does this mean?

Although the physical office will be closed, there will be someone available to answer questions, place contact lens orders, schedule urgent/emergent patients, etc. by phone from 9am to 4pm Monday thru Friday.

Our doctors will continue to be available for red eyes, sudden vision changes, injuries, and other urgent issues for both established and new patients. During the hours of 9am to 4pm call the office at 814-946-3937. Outside of those hours call and listen to the voicemail for instructions to reach one of our doctors on emergency call.

We are offering to extend contact lens prescriptions for current patients. If you are in need of contact lenses, call our office or visit our website to place an order and have them delivered to your home.

If you have glasses ordered or ready for pick up, we will have curbside pickup available from 9am to 4pm Monday thru Friday.

As always, we are here for you. If you need us or have questions, feel free to call us at 814-946-3937.

Thank you,

Drs. Petrunak, Satryan, Jones, Rettig and Territo
