

During this time of uncertainty, Vision Source of Farr West is dedicated to keeping you and your family safe. As we begin to resume routine eye care, our office has implemented a modified COVID-19 protocol which includes: **Temperature Screening and Exposure Questionnaire, Social Distancing Efforts, Personal Protective Equipment (PPE), and Disinfecting/Cleaning Procedures.**

We are confident our social distancing, PPE, and disinfecting efforts will be the best protection for keeping you safe. We look forward to safely seeing you for your upcoming exam and our main goal at Vision Source of Farr West is your safety as we “do more, SEE more, and be more.”

Thank you in advance for your patience and compliance with the modified COVID protocol. Stay safe!
